

1 Publication notice

Title: A Collection of Machine Learning Models for Improved Airport Operations Amidst Adverse Weather Conditions

Journal: European Journal of Transport and Infrastructure Research

Publication Date: 5 February 2025

DOI: <https://doi.org/10.59490/ejtir.2025.25.1.7487>

2 Correction

Corrigendum: The affiliations of the authors were missing from the landing page. The logo of TU Delft Open Publishing was outdated. The titles on the last page (Data Access Statement, Contributor Statement, Conflict of Interest and References) were not correctly formatted. The references were not written in correct APA style. The citation and the copyright and licensing from the about page of the paper were not correct.

Explanation: The affiliations, the logo, the citation and the copyright and licensing were not correctly updated when publishing the paper. The titles on the last page were not correctly formatted. The references were not ordered alphabetically according to the APA style guidelines.

Actions Taken: The affiliations were completed to match the ones in the paper, the logo was replaced with the updated version, the citation and the licensing from the about page were corrected, the references were listed in alphabetical order and the titles on the last page were correctly formatted.
